Sitter visits

Visits per day: _____ Ideal visit times: _____

Minimum visit length that keeps me happy: _____ minutes

Feeding Me

A balanced bowl keeps my feathers bright

Pellets & seed mix

Meal	Time	Food brand & flavor	Amount	Bowl location

Food & water dishes located _____ Water changed how often _____

Fresh veggies & fruit given daily (how much & what kind) _____

Treats & extras

Treats allowed per day _____ Treats live in _____

Foods I go absolutely crazy for _____

My food allergies / sensitivities _____

Seed portion — please measure, seeds alone aren't a full diet _____

Very important

Never feed me: avocado (very toxic to birds!), chocolate, caffeine, alcohol, salty or sugary foods, and apple seeds or fruit pits — my tiny body can't handle much at all.

Cage & Enrichment

A safe cage + a warm kitchen don't mix

Liner / bedding type _____ Cage clean how often _____

Perch & toy rotation _____ Cage cover used at night? _____

Out-of-cage time — how often & where (supervised!) _____

Toys I love (foraging toys & chewable wood are favorites) _____

Never use non-stick (Teflon/PTFE) cookware near me

— the fumes from an overheated pan are fatal to birds, often within minutes.

What normal looks like for me

Usual activity & chatter level (roughly) _____

Call my humans if you see

- ♥ Tail bobbing with each breath, or open-mouth breathing
- ♥ Fluffed up feathers for an extended time, or sitting low on the cage floor
- ♥ Discharge from the eyes or nares, or a drooping wing
- ♥ Not eating, or droppings looking very different than usual

Felix's tip

Birds hide feeling sick really well — it's a survival instinct! Any of the signs above, even mild, are worth a same-day call to the vet, just in case.

Medications & Health

If I need a little extra care

My medications

Medication	Dose	When	How to give it to me

Meds are stored _____ Pill pockets / tricks that work _____

Health notes

Ongoing conditions _____

Allergies (food, meds, environment) _____

Past issues worth knowing about _____

What's normal for me

Circle what applies: I talk/whistle · I preen a lot · I grind my beak · I pluck

Other totally-normal-for-me things _____

Handle with Love

My personality user manual

I love

Favorite pets & scratches (head? cheeks? never the back?) _____

Favorite toys & games _____

Words, whistles, or songs I respond to _____

Please avoid

Touches or handling I dislike _____

Things that scare me (loud noises, sudden movement...) _____

Reading my signals

Crest up = curious/alert. Crest flat & pinned = scared or annoyed. Blushing cheeks = excited!

Happy me looks like _____

Overstimulated me looks like (please give space) _____

Scared me hides / does _____

Open doors & windows

Am I flighted? YES — please check doors/windows! / no, wings are clipped

If I ever get loose in the house, I usually head for _____

How long I tolerate being held before I get antsy _____

House Notes

Keeping my corner cozy

Cage location & comfort

Cage location (away from drafts, kitchen fumes & direct sun) _____

Ideal room temperature (I do best around 65-80°F) _____

Ceiling fans off when I'm out for playtime? _____

Home care while away

Plants to water _____

Mail & packages _____

Lights / blinds _____

Thermostat setting _____

Trash & recycling day _____

Supplies map

Extra seed & pellets _____

Cleaning supplies (cage liner, perch scraper) _____

Carrier lives _____

Thank You for ♥ Taking Care of Me! ♥

My humans and I are so grateful. Help yourself to
snacks in the kitchen, and please accept payment
in whistles and happy head bobs.

With chirps,

(my signature — a little footprint, if you can catch me)
