Feeding Me

Hay first, always

Hay (needed 24/7!)

I need fresh hay available at all times — it's about 80% of my diet, not a treat.

Very important

Never feed me: onions, garlic, avocado, chocolate, dairy or meat, iceberg lettuce, rhubarb, or sugary treats — I'm strictly plant-based, and the wrong bite can upset my tummy fast.

Toys & chews I love (teeth never stop growing!) _____

Call my humans if you see

- ♥ Not eating hay or refusing food for 6+ hours — urgent, see tip below
- ♥ Few or no droppings, or very small/dry ones
- ♥ Sneezing, discharge, or noisy breathing
- ♥ Hunched posture, teeth grinding, or drooling

Cleo's tip

My gut has to keep moving! If I stop eating or pooping for even 12-24 hours, it's a real emergency (GI stasis) — please call the vet right away, don't wait.
